SQ2 60 cabinet with centred basin details:

The SQ2 series is designed by Danish award winning designer Mikal Harrsen. SQ2 is a part of our exclusive series Scandinavian Suite, the stylish 6mm thin edges makes it light and elegant to look at.

SQ2 is designed as a module system which means that you can put the cabinets together in any installation that you want, and you can choose where to place the basin or if you just want a countertop.

Three layers of PU lacquered cabinet and 100% composite top makes it perfect for bathrooms.

By using our special membrane trap we have been able to avoid the u-cut in the drawers which gives extra large space for storage.
